What is the Adoption Program?
The program offers schools, businesses and civic groups help to create a cleaner community by maintaining an adopted area. Participation is free.

Programs in which you can participate include:
- Adopt-A-Road
- Adopt-A-Park
- Adopt-A-Spot
- Adopt-A-Shore
- Adopt-A-Pond

You may know of an area that is littered with trash and needs the attention of your community, and the Adopt-A-Road program wants to help. We also maintain a list of the top 20 Sarasota county roads in need of adoption. There is a great variety of adoption possibilities.

What does an adopt group do?
Adopted areas are maintained as part of a joint effort to keep our environment clean and healthy.
- Participants collect litter and trash
- Participants agree to clean areas a minimum of four times per year.
- After each cleanup, groups submit a report of accomplishments to KSCB.
- Participants are encouraged to schedule a clean up in April each year to coincide with Great American Clean Up and in September as part of the International Coastal Cleanup.

Keep Sarasota County Beautiful provides:
- Safety Training.
- A personalized appreciation sign (except at the beaches).
- Documentation for your record of accomplishments, which is ultimately incorporated in national Keep America Beautiful reporting.
- Safety vests, gloves, and trash bags for use by the group.
- Removal of trash bags.
- Removal of large, heavy or bulky litter and debris.
- Annual recognition of active adopt group accomplishments.

If you want information to adopt a road, park, spot, pond or shore, call Keep Sarasota County Beautiful at (941) 861-6767.
